1. Leveling a pad for two ring tanks.
2. Assembling the fiberglass ring tanks.
3. Installing/welding a piperail fence.
4. Fabrication of a metal precipitation collection apron.
5. Installing a pvc feedline from tanks to trough.
6. Covering the trough ramp with mortar and rock.
7. Excavating for a walk-in trough.
8. Laying block or rock around the trough.
9. Job site clean-up and landscaping.
10. Camouflage painting.

**SPECIAL ADVISORIES**

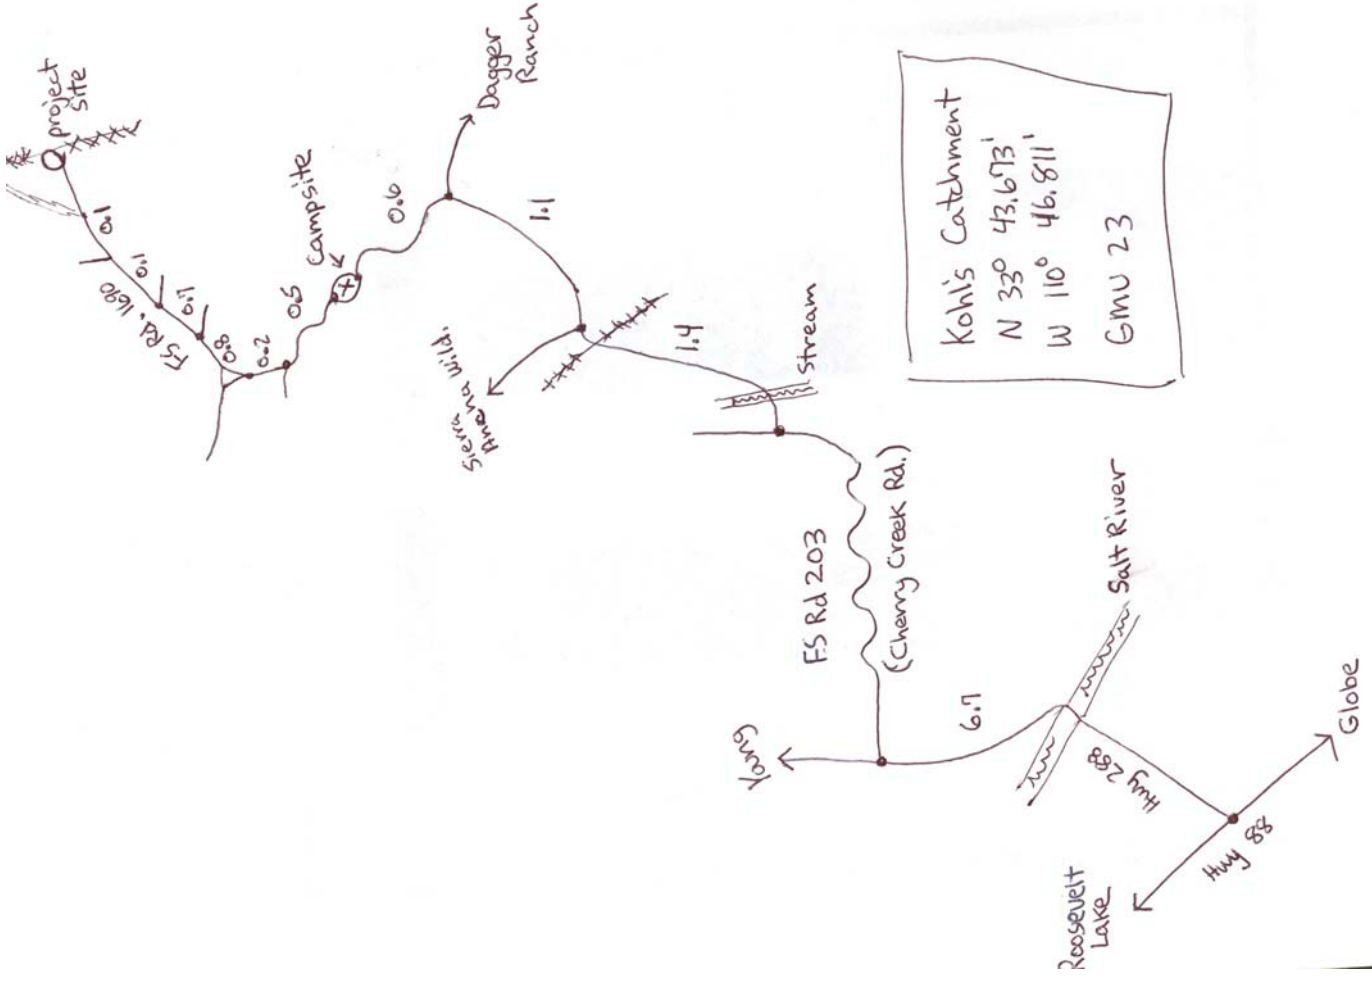

- 1) Road to campsite is good and accessible by two wheel drive high clearance vehicles.
- 2) Please bring your own water and plenty of it.
- 3) All volunteers participating on this project must have a signed wavier on file with the Department. Waviers can be completed or submitted at the project site.
- 4) Please stay on existing roadways.
- 5) Please do not intentionally destroy native vegetation.
- 6) Fire rings and vehicle tracks should be completely raked out when leaving the campsite.

**GENERAL ADVISORIES**

This is a remote area and the possibilities of life threatening injuries exist. Volunteers should be in good physical condition and comfortable hiking in rugged terrain. Volunteers should bring and wear protective clothing, a sack lunch, rain gear, sunscreen, and water (enough for one day) to the project site. Project site is unsafe for young children. Parents or guardians must maintain direct control and supervision of minors on the project site at all times. Projects will take place regardless of local weather conditions.
